When you are logged in, you will arrive at the welcome page. You can see your username at the top and your number of victories.

For now, you have only one character available to play, but later, you will be able to choose.

At the bottom, you can choose the size of the room you would like to play in: with 1 other player, 2, or 3. Once you make your choice, you can click on "Play."

# ○ Waiting page

When you click on "Play", you will enter a waiting room, waiting for other players who want to play in the same room.

While you wait, you can exit the waiting room by clicking on "Cancel".

# ○ Spawn

When you spawn, you will arrive on the map. You can see your username and your health. You can move with the joystick on the left and attack with the button on the right.

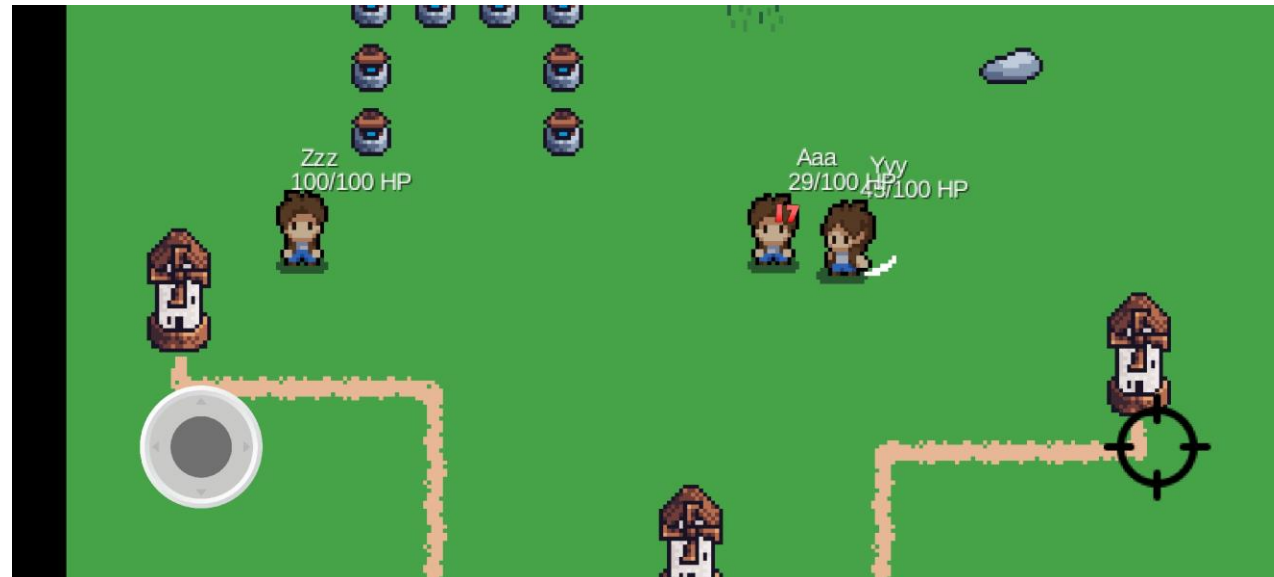

# ○ Enemies

By moving on the map, you can see other players, along with their username and health.

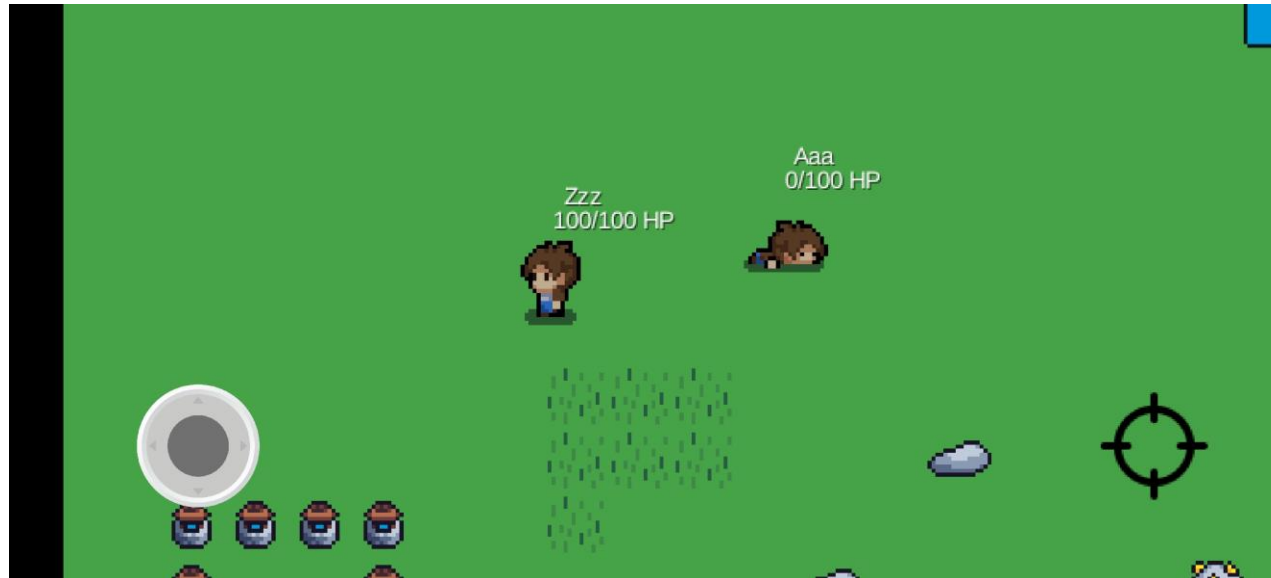

# ○ Attack

When you or an enemy attack, you will see an attack animation. If a player is near another player who is attacking, their health will increase.

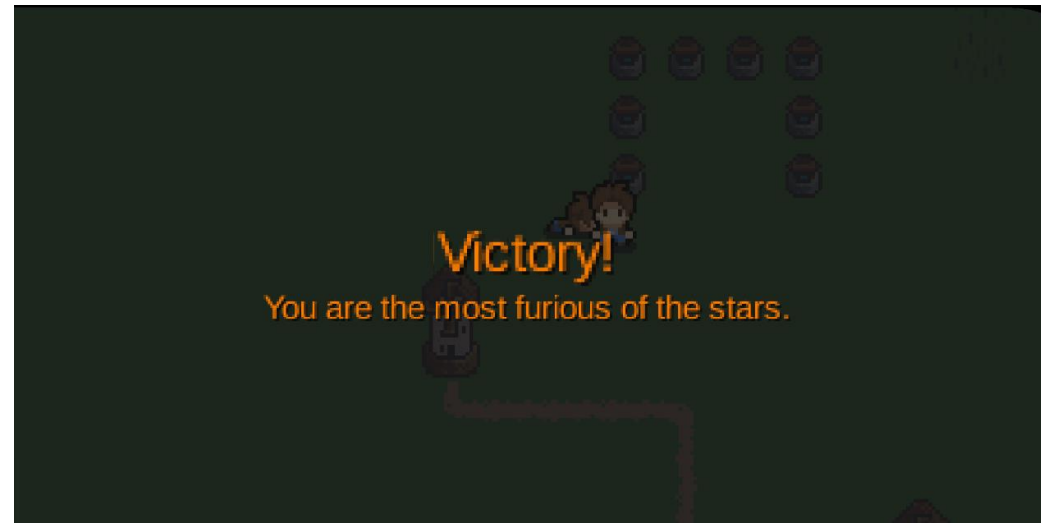

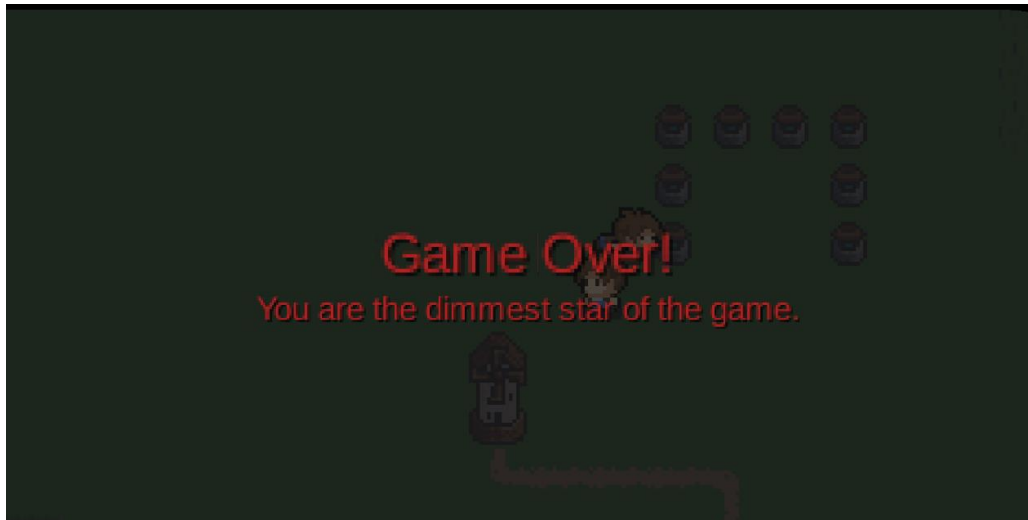

# ○ Death

# ○ End game message

When the game is finished, a message is displayed showing whether you are losing or winning. You can do nothing but wait 5 seconds for the end game screen to appear.

# ○ End game

When there is only 1 player left alive in the game, the party is over. The screen changes to a scoreboard, showing who won and how many kills each player made. You can click on "Exit" to go to the home page.
